

VAAL RIVER OPERATIONS MILLING PLANT

The installation of two new grinding mills at Vaal River Operations for a gold mine near Orkney in the Free State included multi-disciplinary services.

Semane was involved in the design of civil infrastructure structural work, which included reinforced concrete, structural steelwork and electrical design.

This was a Brownfields job at an existing operating gold plant where two mills were added, creating unique challenges and ensuring that the design team had to work very closely with the Client to ensure that operations at the mine were not interrupted during construction.

Project scope included:

- Design and Detailing
- Site Supervision
- Project Management

Component:

Grinding & Milling Plant

Project Location:

Orkney, Free State

Project Value:

R75 million

Client:

Anglo Gold Ashanti

Completion Date:

2006

Senior Staff Involved:

Peter Sharland
Manny de Lima
